REMOTE WORKING
THE IMPACT

Remote working is here to stay – the way we work has changed forever – cloud transformation wasn't even on many businesses' agendas, yet the transition happened almost overnight.

With the speed of change the landscape has shifted and we've compiled some of the key stats you need to know.

KEEPING YOU UP AT NIGHT?

In Censornet's mid-lockdown survey security professionals were concerned about:

49% Data Loss

40% Unauthorised access

37% ATO

33% Downtime impact

SO WHAT'S THE STATE OF PLAY?

74%

74% plan to permanently shift employees to remote work after the Covid-19 crisis ends. [Gartner]

85%

85% of all respondents reported that cybersecurity is extremely important or more important than before the pandemic. [Cisco]

INCREASED ATTACKS

43% Web application breaches account for 43% of all breaches and have doubled since 2019. [Verizon]
